

EU GREEN DEAL

Status of the transition

VIRTUAL CONFERENCE

October 6

Online

Register

The EU Green Deal was adopted in 2019, and it effected EU industry and citizens' lives in many ways. The legislative train took a speed, and we faced new challenges and possibilities in past few years. How did the Green Deal affect our sustainability, businesses, competitiveness and way of working?

Join our upcoming Virtual Customer Conference and find out more from our expert speakers.

Please register until 4th of October.
